

Alberto Carlo Bianchini

INTERACTION DESIGNER

I am a 22 years old designer made in Milan, Italy. In 2018 I graduated in "Interaction Design" at IED Milano (Istituto Europeo di Design).

I've always been obsessed with technologies and digital design, to be intended as a toolkit for improving people's experience. I'm also curious and everyday I try to learn and improve myself; this is why I like to work with people, also from other cultures and with different backgrounds.

For me designing is like cooking a Carbonara: creativity and simplicity are my ingredients! 🧑🍳

Expertise

UI and UX design

Human-machine interactions

Motion design

Front-end development

Skills

Adobe Creative Cloud Apps

Sketch/Adobe XD/InVision/others

Html + CSS/Sass

Javascript + JQuery and others

Certificates

IELTS - B2 (2015)

Others

I am familiar with some of the most famous design methodologies as service design, design thinking and data driven design.

MY EXPERIENCES SO FAR...

2015 - 2018 IED Milano

After the degree at Liceo Scientifico, I've attended the "interaction design" course: graphic design, user interfaces and front-end development.

2016 - 2018 Freelance

Graphic works (logos, presentations, user interfaces) but also websites and code.

2018 UX/UI Designer

After the graduation I joined Atos, an IT company, as UX and UI designer. I worked six months on different projects, side by side with developers.

Open to new adventures

My dream is to work with great team and meet new people with whom sharing passion, ideas and creativity.
